

# SURFACE AND MINERAL ACREAGE FY 2005

\* Information for FY 2005 was unavailable.

\*\*Based on FY 2003 data which is the most recent data provided.

\*\*\* Alaska responded: "The State of Alaska's structure for administration of school lands is different than other states. The Statehood entitlement and other federal land grants that the Department of Natural Resources (DNR) manages totals approximately 105 million upland acres, plus an additional 65 million in submerged, shore and tidelands... The state is currently involved in litigation regarding its former school trust lands.
